“If You Have A Lot Of Debt And Don’t Know What To Do, This Special Report Can Give You Some Very Helpful Tips And Options You Need To Know!”

Dear fellow Arkansan,

It’s unfortunate but true, that good hard working people sometimes fall behind on their bills due to unforeseen circumstances like divorce, illness, loss of employment, or various other reasons outside of their control. The very cost of living today due to skyrocketing fuel and food prices has put many good people behind the 8 ball. If you’re in financial distress, you’re probably confused and worried about what steps you can take to put your life back on track. You’re probably thinking to yourself:

- I don’t want to lose my home. What should I do?
- Do I tell my friends and family I can’t pay my bills?
- I can’t put food on the table and pay the mortgage because of high credit card bills.
- How do I protect my assets if I file for bankruptcy?
- Do I need a lawyer to file for personal bankruptcy?
- How will I know that the lawyer I’ve chosen to represent me is the right lawyer for me and how will I know what to do?

If you or someone you care about has any of these concerns, then please keep reading this Special Report. Hello, I’m attorney John Flynn. I have been helping people in financial distress for over sixteen years. I’ve focused my practice on the challenge faced by many of my fellow Arkansans that have had a downturn in their lives due to various reasons.

It’s unfortunate, but many hard working people end up with financial hardships from time to time. So, I’ve focused my practice in doing what I can to help ease these turbulent times in people’s lives. In fact, turning things around doesn’t have to be a long, drawn out, painful process if you follow the steps that I’m going to outline for you here in this Special Report.

Unfortunately, I see way too many people misinformed about their rights as a consumer during a financial hardship. I've seen honest, hard working, unsuspecting people taken advantage of by uncaring creditors who will make arrangements with them only to make it impossible to ever get out of debt.

That's why I've taken the time to write this Special Report and offer it **FREE** to anyone who asks for it. I have heard too many horror stories of people losing everything they've worked so hard to build by not knowing what to do to protect their home and assets.

In fact, there are key secrets to protecting what's rightfully yours. Every year, I hear of many cases where homes went into foreclosure, and assets were wiped out when all of that could have been avoided.

These days, **you'd better get the "right" information before you do anything.**

It's hard enough to make ends meet these days and losing everything you've worked so hard to attain would be devastating to you and your family. If you've had a hard time sleeping at night worried about how you're going to pay your bills and keep your home, there are some very important facts that you need to know.

WARNING!!!
**IF YOU THINK YOU'RE GOING TO FILE FOR PERSONAL
BANKRUPTCY AND YOU DON'T WANT TO LOSE YOUR HOME, READ
*THIS...***

Even major corporations file for bankruptcy protection so they can restructure their cash flow situation. There's nothing to feel embarrassed or ashamed of during this difficult time. The next thing to remember is that this is a temporary situation that can be worked out if you follow the proper steps to getting the creditors off your back.

**PLEASE DON'T LET A TEMPORARY FINANCIAL SITUATION
AFFECT YOUR FAMILY ANY LONGER.**

Since the economy has slowed down, both large and small companies have laid off thousands of workers. With rising prices and the associated inflation in the cost of food and other consumer products, it's only gotten more difficult these days to pay the bills. So, if you need help, there are real solutions to this temporary situation, and there's nothing to be embarrassed about because even big corporations file for bankruptcy.

With my years of experience in bankruptcy law, I've been able to analyze financial situations, and place everything into perspective helping people protect their assets and point them in the right direction.

The tragedy I see way too often is that people just give up, when there really is a solution they can live with as they start to rebuild their finances.

Every year, thousands of people file for personal bankruptcy without fully understanding the legal process. That's why I've dedicated myself to fully informing and educating my clients as to what steps are necessary to protect their legal rights.

NOTICE: BY LAW I MUST INFORM YOU THAT:

PAST RESULTS ACHIEVED ARE NOT A GUARANTEE OF FUTURE RESULTS. EACH CASE IS UNIQUE AND REFERENCE MUST BE MADE TO THE SPECIFIC LEGAL AND FACTUAL CIRCUMSTANCES PRESENTED.

ARE YOU COUNTING ON THE CREDIT CARD COMPANIES TO WORK THINGS OUT WITH YOU?

The harsh reality is that even if you work things out you still might not ever be able to eliminate all that debt while continuing to make them rich. By paying minimum payments to have them stop calling you at home or at work they continue to make even more money while you pay on the interest only to sink deeper into debt.

Please don't let this come as a surprise to you, but there's a strong possibility that you might not ever get out of debt if you follow *their* plan.

WHAT YOU NEED TO KNOW BEFORE FILING FOR PERSONAL BANKRUPTCY PROTECTION.

Again, I want to stress that filing for personal bankruptcy can be a sound way of eliminating personal debt as you restructure your finances. However, I can't answer every possible question you may have about bankruptcy protection inside this report, *but I can* point you in the right direction!

WHERE DO WE GO FROM HERE?
